

## Colorado Convention Center COVID-19 (Coronavirus) Information

We are working diligently on our reopening plan. While we continue to evaluate our processes and determine best solutions, we want you to be assured that your safety is of our utmost concern. Below are the practices that we have already instituted. We will update information as practices continue to evolve. We wish you and your family well.

\*\*\*\*\*

### **HAND SANITIZERS**

There are currently over 50 alcohol-based hand sanitizers throughout the building. We are in the process of ordering more "hygiene stations" that include hand sanitizers and cleaning wipes.

### **CLEANING**

We have increased the frequency of cleaning high-touch points. Our cleaning products adhere to the U.S. EPA's Emerging Pathogen Policy regarding cleaning disinfectants effective against Coronavirus.

We are regularly disinfecting any wired microphones that we provide.

### **STAFF TRAINING**

Our staff is exercising proper hygiene by washing hands and using hand sanitizer before and after performing cleaning tasks. They are also required to wear proper Personal Protective Equipment (PPE) including face masks and gloves.

We are taking measures to ensure that employees working in the building, including Centerplate, are free of COVID-19 symptoms.

### **GUEST REMINDERS**

We have added friendly signage in our bathrooms, reminding attendees to wash their hands.

We will have floor decals that will be placed in elevators and other locations to identify proper social distancing.

Signage has been added throughout the building, to remind attendees of proper hygiene and ways to reduce the spread of germs.

### **BUILDING EQUIPMENT**

We have increased the outside air intake/air change rates during occupied show hours.

Our bathrooms feature touchless products that are operated by sensors.

Direct-ring phones have been set in our atriums that upon picking up the handset automatically dial the medic that will be on duty based on event hours and attendance.

### **PARTNER INITIATIVES**

Please see our website to view our vendor partners' practices to keep you safe.
