

Flat Rate Changover Explanation

Flat Rate Meeting Room Changeover

The labor cost for changing a Meeting Room from one “standard set” configuration to another (as outlined in the Standard Set Policy) is a flat rate of \$275* per Meeting Room, irrespective of the room size.

Meeting Rooms are classified as follows: 100s, 200s, 400s, 400s, 500s, 600s and 700, Bluebird Ballroom 1(ABC), 2(ABCDEFGH), 3(ABCDEFGH) Mile High Ballroom 1(ABCDEF), 2(ABC), 3(ABC), 4(ABCDEF).

*Additional labor charges may apply for “quick turns” as scheduled and determined by your Event Manager.

Standard Set Policy:

Our Standard Set Policy is outlined in Addendum #1 of the License Agreement and a more detailed description can be found in the attached Standard Set Policy. If the room changeover conforms to the standard set and includes the necessary equipment for the initial room setup the Event Manager will not need to allocate additional labor for equipment provision.

Examples:

- Changing over Meeting Room 102 from a standard theater set to a hollow square incurs a \$275 charge.
- Switching Meeting Room 102 from a standard theatre set to a standard classroom set is \$275.
- Changing Meeting Rooms 102 and 104 from a combination theater set to individual classroom sets for each room incurs a charge of \$550 (\$275 for each room).
- Converting Meeting Room 102 from a standard theater set to a classroom set with additional equipment incurs a \$275 charge plus additional labor costs for extra equipment that is not covered by the Standard Set Policy
- Changing Meeting Rooms 102 and 104 from a standard set theater to a display/exhibits set incurs a charge of \$550 for both rooms, plus provisioning labor costs for each table at \$20 per table.

If, onsite, it is requested that alterations such as striking the back half of a classroom set and adding theater seating, your Event Manager will consult the Building Services Manager for an estimate of the labor required to accommodate the request.
